GALICIAN AFFRAY.

MAY END IN MURDER

Winnipeg Rioters tore Pickets from the Fences to use as Weapons of War

Bulletin Special.

Winnipeg, April 2.—As the result of a wild affray among Galicians in the north end Heinrich Vintonoff lies at the hospital mortally wounded by pickets torn off adjacent fences by the rioters in the course of the bloody combat. He has awful wounds in the head and fractured ribs and hands. Four ringleaders have been arrested.

Balfour has Troubles

Thursday's Daily.

London, March 29th.—In the House of Commons last night a vote of censure on Premier Balfour's fiscal policy was unanimously carried the ministerial abstaining from voting. The session was a petition of the session of March 22, when a resolution introduced by Mr. Ainsworth (free trade Liberal) condemning the government's proposition to impose a general duty on manufactured goods was defeated. The ministerial front benches tonight were deserted and only a dozen unionists, principally free traders were present when Mr. Walter (Liberal) moved a resolution "in view of the declaration made by the prime minister, this House thinks it necessary to record its condemnation of its policy of fiscal retaliation."

The opposition had hoped that, in view of the fact that this was a vote of censure, the government would take up the challenge and it would not adhere to its declared intention of ignoring fiscal resolutions of private members, but Mr. Balfour declined to be drawn out and the opposition were driven to address denunciatory speeches to empty benches.

Mr. Walton's motion was carried without a division.

In reply to an enquiry by Sir Henry Campbell-Bannerman, the speaker said the motion would be recorded as carried.

Winnipeg, April 3rd.—A tradesman by the name of Jas. Cooper was arrested for having in his possession a large quantity of goods stolen from the Oulivie mill.

UNION TERMINALS.

MAY BE BUILT IN WINNIPEG

The C.N.R. have suggested that the G.T.P. join them in erecting the Station and other Terminal buildings

Bulletin Special.

Montreal, April 3rd.—Vice President Morse of the G.T.P. has returned to the city from his western trip. Regarding the intentions of the company in regard to western matters he said the C. N. R. have in mind the erection of large terminals in Winnipeg and have signified their desire that the G. T. P. join them and make the undertaking a union affair. The town of Strathcona, he said, is desirous of being placed on the G. T. P. main line. The company have requested a charter for high level bridge and whether Strathcona is on the main line or not it will be served by the G. T. P.

Soldiers Fired on Jews

Bulletin Special.

Warsaw, April 2nd.—A serious conflict occurred here between the soldiers and the Jews. The troops fired on the crowd killing 4 and wounding 40.

AUDITOR'S LETTER

PRESENTED TO THE COUNCIL.

Text of Mr. Tomlinson's Second Communication on the Matter of Civic Accounting.

Following is the communication presented to the city council on Tuesday evening last by ex-Auditor Tomlinson, in reply to the communication from the secretary-treasurer to the finance committee.

The introductory paragraph of the letter is omitted as it contains language stronger than necessary and does not affect the import of the document.

To the Mayor and Council,
City of Edmonton:

Gentlemen:—
Before taking up this matter allow me to say that I have in no instance had occasion to change the views expressed in my preliminary report, and that I am still certain that very drastic changes will have to be made before the accounting of this city will be satisfactory to an intelligent critic.

I do not intend to discuss at length the technicalities of municipal accounting but in answer to the statement made by the secretary-treasurer, and endorsed by the finance committee that accounting systems are subject to the individuality and point of view of the bookkeeper, I would like to say, that the basis of a system of accounting applicable to any business are inviolable and unless the system is constructed on these fundamental principles, nothing but a medley of figures without systematic bookkeeping, and I am compelled to say that the secretary-treasurer has not comprehended what these principles are and the statements given to the public by him since taking office have not given accurate or intelligible results.

I might here remark with reference to the authority spoken of whose work has been followed by the secretary-treasurer that this treatise by Wm. Powis, F.C.A., does not deal with systematic bookkeeping, but is simply a paper read before an institute of Chartered Accountants and is only a discussion of general municipal topics.

RE ACCOUNTS WRONGLY CHARGED.

The secretary-treasurer states that these inaccuracies are the result of proper information regarding the accounts to be charged, but by reference to my preliminary report you will find that I have in most instances given the authority, for the proper charging of vouchers and since my report was reviewed, corrections have been made appearing herewith and in no instance has the authority given on the face of the voucher been departed from.

These corrections date from January to December, 1904, and it could hardly be considered a commendable practice to wait until February, 1905, before securing proper information to correct errors made in January, 1904, and it is somewhat doubtful whether any accurate information would then be obtainable as the city's officials do not invariably consider their appointments everlasting ones.

Corrections made are as follows, amounting to \$5676.45, Sundry accounts:

To waterworks—	
For labor charged in error.	
Water operations—\$ 2721.04	
Electric light 297.00	
Board of Works 1952.92	
Sewers 498.06	
	\$5468.92
Water Operations—	
To Electric Light.	
For labor charged "in error" \$10.50	
Electric light operation—	
To Sundry Accounts.	
Finance. For printing charged "in error" \$63.60	
Electric light. Labor charged "in error" \$43.38	
	\$106.98
Jasper avenue extension—	
To Board of Works.	
For labor and material for house moving, charged "in error" \$90.05	

RE CASH BOOK.

The secretary-treasurer states that the necessity for extension and elaboration consequent upon the City Charter coming into force was foreseen and considered by him at the beginning of last year.

The City Charter came into force in November last when the town became a city and my report was handed in on January 30th of this year, and not until after that date was

the new book sent for which should have been here for use on the first day of the year, and although the book arrived some time ago no entries have yet been made therein.

RE REVENUE.

The expenditure of revenue moneys is a matter to be decided upon by the council, no restrictions as to how these funds are to be spent appearing in the charter, the only restrictions being as to the limit of tax rate which shall not exceed 2c. on the dollar, including the General Debenture appropriations. The council of 1903 purchased from current funds several items of tangible value, amongst was a street sprinkler costing \$280.70. The secretary-treasurer now thinks that the cost of the sprinkler (or its fair present valuation) might reasonably be made a debenture expenditure in 1905 which means that the council of 1905 might justifiably sell the city's tangible assets bought and paid for from the current funds of 1903 to the General Debt account and thereby raise revenue to be used by them as they think fit.

Re the Revenue Surpluses of 1900 and 1901 amounting respectively to \$2432.83 and \$1169.35 which the secretary-treasurer says were carried to the capital account "to lie at rest" as an offset for future deficits, the wisdom of which course will be apparent when the accounts of the past year are closed.

Allow me to say that at the close of 1904 no such "rest" existed. The current accounts at the close of 1903 show a surplus revenue of \$2,442.84 with no reserve in existence either from revenue surpluses or profit on the sale of real estate. During 1904 the sum of \$3234.70 for part cost of Rice Street and College avenue extension was debited to capital account to offset the imaginary reserve supposed to be in that account but which action was in reality a charge against the revenues of the year and was in excess of the surplus of 1903 to the amount of \$791.86. In this regard I would like to draw your attention to a report appearing in the Journal under date of January 3rd, which is a record of the last meeting of the council of 1904. "The city," said Mr. Kimbaird, "will start the New Year with the financial arrangements pretty well straightened up. There is now no bank overdraft, and the current account shows a balance in favor of the city of some \$2000. As Councilor Cushing remarked, 'The present council is vacating office in a blaze of glory.' As regards these statements I must inform you that this city had an overdraft at the Imperial Bank of Canada of \$3282.16, with cheques outstanding to be paid amounting to \$8620.32 and the council of 1904 according to the revenue statement to be submitted shortly by the secretary-treasurer vacated office leaving behind them a revenue deficit of \$5827.47 which debt will have to be paid by the council of 1905.

There is yet another statement which needs correcting, and that is that the only valuable item of public works equipment is the street sprinkler, value \$280.70. From an inventory taken by the official in charge I find that its valuation of the equipment is, with the street sprinkler \$939.00.

RE CAPITAL ACCOUNT.

The explanations given by the secretary-treasurer in reference to the nature of this account are numerous and explanatory and are as follows: "This account has not the same significance as any other capital account but has four distinct functions. It is a 'rest account.' 'Profit and loss account' represents the surplus of assets over liabilities, and the reserve account represents the reserve capital, this last function being an addition to the collection and nomenclature of accounting I offer no comment on this subject, but simply mention it for future reference.

I would here like to quote this secretary-treasurer's report, he says, "The only point which I can gather from the Auditor's so-called report is a hazy insinuation that the fixed assets have been too rapidly depreciated, and an appraisal of these properties could easily be made if I cannot satisfy you that the depreciations made have been fair and reasonable."

In answer to these statements I will refer you to the following transcript from the Journal, which entry has been made since my report was received.

To Capital \$2658.21.

For over depreciation being amount required to place account at inventory valuation. An evident contradiction.

To quote again, "All the other capital assets are concurrent and their depreciation has been kept in pace with the corresponding liabilities so that both will disappear from the accounts at the same time."

The following entry has also since been made:

Street Improvements.

To capital \$2,968.08

For over-depreciation written back to place account at concurrent value, which is another contradiction.

RE REAL ESTATE.

The secretary-treasurer imagines that I have been misled by a printer's error made in printing the annual statements of 1903, but I would like to have it understood that I get my information from the original entries made in the books. I therefore reiterate the statement made in my preliminary report that the piece of property upon which the new city hall stands and costing \$2,500, has never influenced the balance shown by the capital account of assets in excess of liabilities.

RE SINKING FUND.

The secretary-treasurer says, "I have no doubt it came as a surprise

You will want Paint, Varnish, Furniture Polish, Wall Colors and Brushes.

Ross Bros., Limited, have the best assortment of these Goods to be found in any store west of Winnipeg, and you will be surprised to find how simple it is to apply these goods if properly selected.

ROSS BROS. buy direct from the Manufacturers, and their long experience in the paint business enables them to choose what is best in material, and simplest in application.

There are so many times that a lady wants to do a little touching up in a room or on a piece of furniture, but does not want to go to the trouble, or expense of engaging a painter. Any man, woman, or child can do a good job with our ready mixed paints, and if you need any directions it is no trouble for Ross Bros. to give all the information necessary. New and fresh paints arriving almost daily.

THEY SELL AN IMMENSE QUANTITY of a season and the continual turnover always WARRANTS FRESH GOODS, which is a very ESSENTIAL THING in good READY MIXED PAINTS AND VARNISHES. Many smaller concerns will say their goods are just as good and fresh, but use your own judgment in this, and common sense will show you the difference.

To those who expect to want wire fence this season, Ross Bros. would like to call attention to the "LAMB WOVEN WIRE FENCE."

Many people will think that one wire fence is as good as another, but there are many reasons why some Woven Fences are better than others. The LAMB FENCE has a lock or fastening peculiarly its own. It is made from the best Galvanized Carbon Wire. Provision is made for the contraction and expansion, and it does not sag or buckle which is so annoying in a great many fences. The wires are heavy and strong, and are made to withstand the pressure or attacks of the largest animals, and any man can stretch it into place. It is kept in 20, 30 and 40 rod rolls, in heights of 24 inches, 30 inches and 32 inches, sold in Edmonton only by

Continued from page two

to you, as it did to me, to learn that the sinking fund had not been tested. This was a plain duty and he should be reprimanded for having neglected it.

If you will refer to the secretary-treasurer's annual report for the previous year, you will find the following:

The municipal ordinances provide for sinking fund shortages being made up from the current revenue, but the general standing of our sinking funds renders the exercise of this provision unnecessary for the present. The special sinking fund being up to its full figures and the total shortage in general tax sinking fund \$2450.94 being fully represented by the increasing value of the general tax debenture assets, as explained in my last year's report, the shortage at the close of 1901 \$2000.32 being reduced during the year by \$41.38. Now at the end of 1903 and without any action having been taken to bring the general tax sinking fund up to its normal condition, a correct calculation of this fund shows that a surplus of \$392.74 existed and the special tax fund had a surplus of \$259.74 so that it certainly must have been a great surprise to the secretary-treasurer to be made acquainted with the correct status of these funds. I would also like to have it explained to you what the increasing value of the general tax debenture assets has got to do with increasing the amount of money deposited in or earned by a sinking fund as a Municipal Sinking Fund means:

Moneys actually set aside at recurring intervals and invested in interest bearing securities with the object of ultimately applying the consequent accumulation of the fund to the redeeming of debt that has been contracted and which will as a certainty mature and demand repayment some time in the future, and to have in the future, at the maturity of the debt, only sufficient money to disburse the liability, which, when accomplished, the fund is closed.

As regards these surpluses, the secretary-treasurer says they can readily be withdrawn and added to capital, but the Charter says, Title 26, Sec. 2.

"No moneys levied and collected for the purpose of a sinking fund shall in any case be applied towards paying any portion of the current or other expenditures of the city," and Title 26, Section 5 says: "The members of the council who voted for the same shall be disqualified from holding any municipal office for the period of two years."

SEWERAGE DEBENTURE BONDS.

The secretary-treasurer says that, "When I laid before the Council of 1904 the statements relating to this Special Frontage Assessment, they fixed upon the rate of 60 per foot frontage, which, spread over a period of forty years (the lifetime of the debenture) and reckoned at the rate of five per cent (the usual local improvement interest rate) produces approximately only fifty per cent, of the cost with the expressed intention of also applying this rate to all subsequent extensions of the system."

I requested the secretary-treasurer to produce the minutes of the meeting in support of this statement that a fixed rate of 60, was made by the council of 1904 but he was unable to do so.

I request the secretary-treasurer to produce the minutes of the meeting in support of this statement that a fixed rate of 60, was made by the council of 1904 but he was unable to do so.

Now the cost of the whole sewer was \$72,000.00 of which one half was to be paid for by frontage assessment. Debentures were issued in payment of some \$36,000.00 of which were sold as general tax debentures. The general tax debentures were sold at a discount of 12.92 per cent bearing 4.12 per cent interest. The frontage tax debentures were sold at a premium of \$1,267.29 bearing 5 per cent. From the statement of the Secretary-Treasurer the premium obtained from the sale of the frontage tax debentures was handed over to the general tax debentures to offset the discount from the sale of these debentures at 4.12 per cent so that the general tax debentures were practically sold at par at 4.12 per cent and the frontage tax debentures at 5 per cent. Now at the end of forty years the sum paid will have been \$3,923.20 by the frontage tax payers while the amount paid by the general tax payers will have been \$78,255.20 or a difference of \$5,668.00 which is considered by the secretary-treasurer to be half of the cost as authorized by the council.

By way of closing these remarks I will point out to what extent my "so called" report has been followed.

The errors made in the cash book amounting to \$5,676.45 have been rectified.

The over depreciation of concurrent assets \$2,968.45 has been corrected; also the value of fire appliances has been written up to the inventory valuation which necessitated an entry of \$2,658.21. The total errors corrected up to the present amounts to \$11,202.74.

An inventory has been taken of fire appliances and public works equipment, but no account has been opened in the ledger for the latter so that the balance sheet contains no record of this valuable asset.

The sinking funds are in excess of their required earnings \$1,065.76.

The most important matter of all the necessity for re-systematizing the accounts has been ignored, and in my opinion it is advisable that a chartered accountant should be obtained to decide this matter, in fact I have no hesitation in saying that the confused state of this city's accounts demand it.

Yours respectfully,

A. R. TOMLINSON.

LAWN GRASS

When you go to the expense of getting ground ready for a lawn, it is poor policy to be careless about the selection of the seed.

The seed suitable for Ontario and the Eastern Provinces will not do in the North-West as the tender roots are killed during the severe winter.

After years of experimenting, a satisfactory mixture, consisting of seed of entirely native variety, has been found.

USE B. & K. LAWN GRASS

and if the directions are properly followed you will not be disappointed.

Among the successful users of B. & K. LAWN GRASS we can mention:—

J. H. Picard, Alderman, Edmonton. J. A. McDougal, Merchant, Edmonton.
Alex. Taylor, Post Master. A. W. Ormsby, City Electrician.
S. Larue, Merchant. Mayor Davis, Strathcona.
The Strathcona Tennis Club, Strathcona. And many others.

MONTANA OIL MAN IN THE CITY.

J. Ware, representing the Montana Swift Current Oil company came in on Friday and is spending a few days in the city selling stock of the company. The property of the company is located just across the international boundary, being some eight miles from the Southern Alberta oil fields. One well has been sunk on the property from which a very high quality of lubricating oil was obtained and several boring machines are now at work sinking other wells.

BUYING EDMONTON BRICK

F. Anderson, of Anderson & Co., brick makers, returned from the south last week where he had spent some time in the interests of the company. During his trip he visited the towns and cities of Calgary, Medicine Hat, Lethbridge, Mankook, High River, Fernie, B.C., and intermediate points. The immigration into the south country this season is very heavy and a deal of building is under way and in prospect at all points visited. Large orders for Edmonton pressed brick were taken at nearly every place visited. One car was shipped last week and two are being loaded today for High River. The total orders taken in the south so far will reach about 400,000 and Mr. Anderson is convinced that sufficient orders can be secured in that part of the country to consume the entire output of the yard this season. About 200,000 are now on hand and ready for shipment.

WILL RESUME OPERATIONS.

The North Alberta Gas and Oil Co. will resume boring operations in the course of a few days. Mr. Ginter and a crew are on the way from Pittsburg, Pa., to operate the plant and new machinery to augment the present plant has been ordered and is expected to arrive at an early date. Work will be begun as soon as possible and continued until successful or until it is demonstrated that the promoters have been mistaken. Mr. Ware of the Montana Swift Oil Co., who is in the city was shown over the property on the flats and pronounced the indications excellent.

NEW MAIN STREET BLOCK.

F. Fitzgerald will erect a two story frame block on Jasper avenue east of the new Hudson Bay Co.'s block. The building will be 35x50 and will contain two stores. W. H. Gardiner has secured the contract and will proceed with the building at once.

CITY FIREMAN HONORED.

On Saturday Mr. C. Turgeon completed his tenth year as engineer of the city fire brigade. Advantage was taken of the occasion by the members of the brigade who on Saturday evening held an impromptu luncheon in the hall. Mr. Heathcote, secretary of the brigade, introduced proceedings with an address suitably replied to by Mr. Turgeon. Speeches were also made by Ald. Griesbach, Chief Wilson, W. Barnhouse, captain of the hose wagon, G. Parslow, captain of the chemical, and L. Garon, captain of the hook and ladder company. About twenty-five members of the force were present. Mr. Turgeon is the oldest employee of the municipality, having been ten years in continuous service. He came here from Montreal, where he had served six years on the force of that city.

GOLF CLUB MEETING.

The annual general meeting of the Edmonton golf club was held on Saturday afternoon when the following officers were elected: President—T. E. Turnbull. Vice president—E. C. Pardee. Secretary—treasurer—V. W. Barford. Committee—His Honor Judge Scott and Messrs. Simpson, Supple, Seoble, Emery and Strathely. The membership fee of the club is \$5 for men and \$1 for ladies. As the membership of the club is limited, applications for membership should be sent to the secretary immediately.

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

"Some go to Church."

A Scotch paper publishes the poem entitled "Some go to Church" which made a sensation a few years ago. The author is said to have been the Rev. J. S. Boucher, Cameron Training College. The following is the poem:

Some go to church just for a walk;
Some to stare, and some to talk;
Some go there to meet a friend;
Some their idle time to spend;
Some for general observation;
Some for private speculation;
Some to seek or find a lover;
Some a courtship to discover;
Some go there to use their eyes,
And newest fashions criticise;
Some to show their own smart dress,
Some their neighbor to assess;
Some to see a robe or bonnet,
Some to prize the trimming on it,
Some to learn the latest news,
That friends at home they may amuse;
Some to gossip false and true,
Safe hid within the sheltering pew,
Some go there to please the squire,
Some his daughters to admire;
Some the parson go to fawn;
Some to lounge and some to yawn;
Some to claim the parish doles,
Some for bread and some for coals,
Some because its thought gentle,
Some to fix their pious zeal,
Some to show how sweet they sing,
Some how loud their voices ring,
Some the preacher go to hear,
His style or voice to praise or jeer,
Some go for forgiveness to implore,
Some their sins to vanish o'er,
Some to sit and doze and nod,
But few to kneel and worship God.

Dominion Fair Race Track.

New Westminster, March 21st.—The management of the Dominion Fair realizing the importance of having a good program of horse races as one of the attractions at the national exhibition to be held here from Sept. 27 to Oct. 7 have decided to move the main building back fifteen feet which will overcome the difficulty at present in the way of laying out a race track suitable for the occasion. With the big building out of the way it is hoped to have a half mile track that will be one of the best in Western Canada.

Land Tax Was the Snag.

A Vancouver despatch says that it is little doubt that all difficulties will be smoothed away ultimately there is no question just now that the business of transferring the E. & N. railway to the C. P. R. is not progressing quite as smoothly as the high contracting parties would like. The snag which is causing the trouble at the present time is said to be the taxation of the land grant, which was given as a subsidy for the building of the railways and which includes one-third of the whole of "Vancouver Island."

According to the terms of the railway contract, this land is free from taxation for ever unless alienated. That is to say as long as the railway company holds it, it pays nothing to the provincial treasury, but when disposed of to farmers and other purchasers, it immediately becomes assessable. It is true that the land has not been sold with the railway, and that it remains in the possession of the E. & N. Company. There is, nevertheless, a legal question, whether or not the sale of the railway would make the land grant liable for taxes.

CALGARY WILL CELEBRATE.

From the Winnipeg Free Press:—According to reports reaching Winnipeg from the west, Dominion Day will be observed in the city of Calgary this year in a manner which will do honor to the great day in Canada's history, and which will also reflect credit on the public spirit and civic pride of the citizens of that ambitious western city. It is still too early to state in detail what the nature of the celebration will be, but the suggestion was offered some time ago that such a demonstration should be made and found immediate acceptance. Since then the project has been largely discussed, and it is practically agreed that the city shall enter on preparation for the observance of the day on a scale in keeping with the birthday of the province of Alberta. It is proposed in the first place to arrange for a military demonstration. In this connection Captain Gordon and Captain Bagley of the Canadian Mounted Rifles, leading citizens of Calgary, were in the city during the present week conferred with the officers of the 90th Rifles, regarding the possibility of an arrangement being made to take the entire regiment to Calgary for the occasion. The matter was discussed informally in the officers' mess and all the officers present expressed themselves as enthusiastically endorsing the project. The trip would be a very attractive one, and it is expected that the members of the 90th as a body would look on it in the same spirit as the officers. It is also thought that probably many other Winnipeggers would join the excursion and assist in observing the inaugural day of Alberta.

It is believed that arrangements can be made to run a train through in twenty-four hours and that a very low rate for the round trip could be secured.

In addition to the 90th, there would be a large body of western militia present, and a full programme of military parades, sham battles and military band concerts would be arranged. There will also be a programme of sports throughout the day including football, lacrosse and other games such as are usually arranged for on gala occasions. Western cowboys and other riders will give exhibitions of horsemanship and roping and full provision will be made for all western sports. In the evening concerts will be held and a great display of fire works will be given.

The celebration is intended as a notification that Calgary is very much alive and is prepared to make a fight for the location of the permanent capital there, and a fight which will end only when the matter is permanently settled. Calgary people are perfectly assured that they have at least an even chance with other aspirants of landing the prize. Captains Bagley and Gordon spent a week in Winnipeg and returned west on last evening's train.

USE a Cuban filler in my Pharaoh Cigar. So do some other manufacturers, but there's a difference—not all Cuban filler is good filler. I make special yearly trips to Havana, so that I can buy the choicest leaves for Pharaoh filler.

These are grown in the Manicaragua district, in the Province of Santa Clara—the locality par excellence for fine tobacco.

The warm, moist atmosphere and marvellously rich soil of this locality fit it peculiarly to grow tobacco of the quality kind—delicate leaves, clear and flawless.

COUNCIL L.I.D. 27 T. 4

The council of Local Improvement District No. 27 T. 4, met at St. Albert in special session on Saturday, March 25, at 2 p.m., at the request of Councillor C. Dumont, all the members present. After discussing ways and means of building and repairing bridges that are very much needed—

It was moved and seconded that this council apply to the Government to build the following bridges, viz., one pile bridge on River Lot G, in Tp. 53 Range 26, 104, one pile bridge on River Lot I Tp. 53, Range 26, and a pile bridge between sections 22 and 23, Tp. 53 Range 27, 104, and to repair the bridge over the Sturgeon River on River Lot 2, Tp. 53, Range 26, 104; all on the main road from Spruce Grove to St. Albert, and that the council build the necessary approaches and grading required. And that a copy of this resolution be handed to J. L. Lambert, M.L.A., St. Albert, for presentation to the Government.

It was moved and seconded that overseers will be required to work out their taxes while acting as overseers, and for any time that overseers may work as such after working out their taxes, they shall be paid at the rate of one dollar and fifty cents per day while actually engaged in such work and that overseers are also required to work while acting as overseers as far as possible.—Carried.

Moved and seconded that the council now adjourn to meet again at the call of the secretary.

STRAETHCONA.

[From the Plaindealer.]

Dr. Green has purchased William Fowler's residence in the west end. The books of the Imperial bank Strathcona, are being inspected this week by Mr. G. R. P. Kirkpatrick, the manager of the Edmonton branch.

Excavations have been begun for the foundation of a solid brick cottage which Mr. Thomas Bennett will build this season on Oliver avenue, opposite the Grandin street school. Mr. Herbert Gray returned this week from spending the winter at his old home in Colchester County, Nova Scotia. The winter was very severe in the Maritime Provinces more so than in the memory of the oldest inhabitants. There was a great depth of snow blocking the railways in many parts for weeks at a time. When Mr. Gray left Nova Scotia two weeks ago there was still immense quantities of snow on the ground, and the province still in the arms of winter.

We Will Buy

A 50c. Bottle of Liquezone and Give it to You to Try.

We want you to know about Liquezone, and the product itself can tell you more than we. So we ask you to let us buy you a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquezone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquezone.

We Paid \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquezone costs 50c. and \$1.

—Nanance Weaver: Cecilia Ballantyne died suddenly at her home, West Bridge street, last Friday afternoon, aged 62 years. Deceased since her mother's death lived alone, and was apparently in good health up to the time of her death, being suddenly seized with convulsions, caused by Bright's disease, and which resulted in heart failure. Miss Ballantyne was a daughter of the late John Ballantyne, Deseronto Road, who some years ago retired from farming, and came to reside in Nanance. Miss Ballantyne was a woman of education and refined tastes, and was highly respected by all who knew her. For years she was a teacher in West Ward school and will be long remembered by many of her pupils for her kindly disposition and delicate tact in creating in them a desire for education and instilling into them refined tastes and gentle manners. A brother and sister, Mr. Peter Ballantyne, in Alberta, and Mrs. Wm. Robb, Montreal, survive. A sister, Mrs. John Hay, Kingston, died a few days ago. Deceased was a life-long member of the Presbyterian church, the funeral services being conducted by the Rev. J. R. Conn, at her late residence on Monday afternoon.
